"Redefining Pet Wellness Through Satirical Innovation(TM)"

Seed Round (Emotional) - Series LOL

Problem

Pets are under-optimized.

Modern animals suffer from:

- Low tail latency

- Inconsistent paw alignment

- Unquantified vibes

Meanwhile, humans are wasting money on functional pet gear. Gross.

Our Solution

PetLoot.xyz delivers absurd, overpriced, possibly non-functional pet technology to highly impressionable consumers.

No real utility

Entirely made-up science

Designed to confuse both humans and animals

Product Examples

- Quantum Bark Collar(TM) - Punishes barking with existential dread

- Thermal Snout Sleeve(TM) - Keeps the nose warm and humble

- Worm Harness V2(TM) - For harnessing your worm's full potential

- Bark-2-Text Translator(TM) - Now with 73% less accuracy

Market Opportunity

- 90 million dog owners

- 60 million cat owners

- 4 million guinea pigs with unresolved trauma

- 1.5 billion meme addicts

Our TAM: anyone who has a pet and a sense of irony

Business Model

- 100% Dropshipped Absurdity

- Gross margin: Imaginary

- COGS: Mostly guilt

Revenue streams:

- Satirical product sales

- Fake affiliate program

- "Enlightenment-as-a-Service" (Beta)

Traction

- 42 orders (possibly ironic)

- Viral on Reddit's "TechThatShouldNotBe"

- Conversion rate spiked after influencer review:

  "I don't know what this is, but I bought three."

Team

- CEO, Barkitecture - Trained under a golden retriever

- CTO (Chief Tail Officer) - Currently chasing his own roadmap

- Lead Wellness Engineer - Previously worked in essential oils for raccoons

- Legal - We don't have one. That's the risk.

Ask

We're seeking $3 million in:

- Cold hard crypto

- Gift cards

- Experimental energy

Funds will go toward:

- More unhinged product R&D

- Bribing AI influencers

- A lava lamp-shaped headquarters

Closing
